Keep an Exit Path Clear - Level 2

Level 2: identify a blockage and arrange help

During a routine check, Ari sees boxes blocking the hall exit. There is no emergency. The boxes are too heavy for Ari to move safely. Use the building's practice plan.

Exit path	Keep the marked path and exit doorway clear.
Heavy boxes	Do not lift heavy boxes by yourself.
Who can help	Ask the building staff to move the boxes safely.
After the task	Check with staff that the path is clear again.

Sample answers below. Accept equivalent wording and supported communication.

1. What is blocking the exit path?

Boxes.

2. Should Ari climb over the boxes or lift them alone?

Neither. Ask building staff for help.

3. Write a message that explains where help is needed.

Example: Heavy boxes are blocking the hall exit. Please move them safely.

4. What should be checked after staff move the boxes?

That the marked path and exit doorway are clear.
