

Make a Space Heater Area Safer - Level 2

Accept pointing, speech, signing, typing, or written answers.

For this practice only, choose the safer next step. Follow the heater manual and local instructions at home.

**1. A space heater is near a curtain.**

- A. Move it away from the curtain.
- B. Leave it touching the curtain.

A**2. You leave the room.**

- A. Turn off and unplug the heater.
- B. Leave it running alone.

A**3. A coat is drying on the heater.**

- A. Move the coat to a safe drying spot.
- B. Keep it on the heater.

A**4. The cord is worn.**

- A. Stop using it and tell a support person.
- B. Wrap tape around it and use it.

A**5. A clear floor area is around the heater.**

- A. Keep the area clear.
- B. Put a bag beside it.

A**6. A power strip is full.**

- A. Use a wall outlet as directed in the manual.
- B. Plug the heater into the crowded strip.
