

Make a Space Heater Area Safer - Level 2

Name _____ Date _____

For this practice only, choose the safer next step. Follow the heater manual and local instructions at home.

1. A space heater is near a curtain.

- A. Move it away from the curtain.
- B. Leave it touching the curtain.

2. You leave the room.

- A. Turn off and unplug the heater.
- B. Leave it running alone.

3. A coat is drying on the heater.

- A. Move the coat to a safe drying spot.
- B. Keep it on the heater.

4. The cord is worn.

- A. Stop using it and tell a support person.
- B. Wrap tape around it and use it.

5. A clear floor area is around the heater.

- A. Keep the area clear.
- B. Put a bag beside it.

6. A power strip is full.

- A. Use a wall outlet as directed in the manual.
- B. Plug the heater into the crowded strip.
