

Store Cleaning Sprays Safely - Level 2

Level 2: apply storage directions after using a product

After a helper finishes cleaning a table, the spray bottle label says: Keep cap closed. Store in the labeled cabinet. Keep away from food. Adults or trained staff handle the product. Use the label to finish the routine.

Cap	Close the cap after use.
Place	Return the bottle to the labeled cabinet.
Keep apart	Do not place it with food.
Support	Adults or trained staff handle the product.

Sample answers below. Accept equivalent wording and supported communication.

1. What should happen to the cap after use?

Close it.

2. Where should the bottle be stored?

In the labeled cabinet.

3. Should the bottle go with food?

No. Keep it away from food.

4. Who handles the product in this routine?

Adults or trained staff.
